

# IB Computer Science revision notes

Welcome to my IB Computer Science revision notes! Feel free to use it as your study guide, it helped me a lot, too!

This page was started as a Computer Science project for revising. We could not completely finish the revision notes before the exams so mainly in the HL option there can be empty sections. Since we all passed the IB and are at university, we are looking for people to continue collecting revision notes. If you are interested, don't hesitate to mail me: [Matyas Mehn](#)

This set of revision notes orientates itself after the [syllabus](#) for the examinations taking place in May 2014. I hope you find them very useful and that they can help you with revising!

If you have questions, do not hesitate to contact me: — [Matyas Mehn](#)

In the future, I want to collect ideas for Computer Science projects on this [page](#). Feel free to submit your suggestions per mail! → [Matyas Mehn](#)

## Subscribe!

If you are logged in, you can use the e-mail subscription option displayed on the → right toolbar. If you are not a user and would like to be informed of changes, use the RSS feed of this Wiki: [RSS Feed](#). I strongly recommend using the RSS feed as it is faster and saves resources of the webserver.

You want to take these revision notes with you? No problem! A book creator has been added to allow you to conveniently create PDFs from the content in this wiki. Simply click the appropriate button in the toolbar on the right →

Enjoy browsing!
